Raining paper

Watch the adult demonstration

Resources

Prepared bottle-top launcher | balloon | pump | tissue-paper pieces | tray

How To Guide...

1. An adult prepares a smooth-edged launcher with a balloon stretched over its base.
2. Put a few large tissue-paper pieces inside.
3. Pull the balloon back and pause: ready, steady...
4. Release it upward over the tray and watch the paper rain down.

Adult preparation: Bottle shape is unclear in the plan: this is a proposed launcher guide. Prepare all cut edges in advance.
